

### DEWALT HOSTS LINKEDIN LIVE SAFETY TRAINING FOR 2020 SAFETY WEEK

DEWALT is committed to promoting, improving, and strengthening the construction industry's safety culture. One of the many ways we do this is by participating annually in [Construction Safety Week](#), a full week dedicated to proliferating the safety mindset movement by sharing best practices, tools, and resources across the construction industry.

This year DEWALT will be hosting a LinkedIn Live Safety Training on **September 16 at 12:30pm EST**. Our goal is for everyone within the industry to have access to the latest safety best practices and resources. This LinkedIn Live will allow users and businesses to participate in a safety training from any jobsite across the country.

#### JOIN IN TO WATCH:

- Live demos of DEWALT's [PERFORM & PROTECT™](#) product line
- Walkthroughs of 20V MAX\* & 60V MAX\* cordless systems safety benefits
- Jobsite PPE tutorials

LIVE EVENT

**Sept. 16**  
12:30pm EST.

## DEWALT PPE RECOGNIZED BY ENVIRONMENTAL DESIGN + CONSTRUCTION MAGAZINE

We are excited to announce that two DeWALT PPE products have been recognized by *Environmental Design + Construction* magazine as two of "The Best Anti-Fog Safety Glasses for 2020," including the number one spot. The magazine recognized the DPG55-11C Clear Anti-Fog Safety Glasses as their top anti-fog model and the DPG82-11CTR Anti-Fog Dual Mold Safety Goggle came in at number five on the list. Although fogged lenses have always been frustrating and potentially dangerous, it's now more important than ever for safety eyewear to remain fog-free due to increased condensation as result of wearing a protective face mask.
